Grading Suggestions for Parents

Because of the nature of course content and varying expectations by parents, it will be your responsibility to assign a grade for this class. The chart above, and the questions to the right, should give you helpful guidelines.

You will find it helpful to review each weekly assignment sheet that I give your student at each class. Each chapter has suggestions for additional study at the end. These should provide you with additional assignment material should you want to assign extra material. Be sure to consider extra credit work when you assign a grade. If you have any questions please feel free to call me or contact me via e-mail.
